Compliments of Garden Valley Collegiate Institute

50
Garden Valley Collegiate Institute, Official Opening, December 10, 1967.

Dedication

In sincere appreciation for faithful and conscientious service as trustee and chairman of our schools from 1953 - 1967, this yearbook is respectfully dedicated to Mr. Henry F. Wiebe.

God bless you as you continue to serve the community.

Yearbook

Editor

1967-1968 was an important year to the citizens and especially to the students of the Garden Valley School Division. This was the first school year in our new million dollar school. Ultra-modern in every sense, one can feel a justifiable pride in it. So, I along with my faithful and able committee set out to compile a Yearbook worthy of commemorating such a year.

To the Seniors, I wish all the best in the future, and all the strength they may need when they come up against situations that are somewhat less than the best. To the Juniors, Sophomores, and Freshmen, I should like to express my hope that they have many successful years to come.

To the friends and relatives reading this book — it is my wish that you may all enjoy it and find it interesting and entertaining. Perfect? Hardly. But, it is our best and may the warm wishes and sincere hours of work erase any blemishes that may appear between these covers.

I should like to thank Mr. Neufeld, the staff advisors, the able committee members, and anyone and everyone who in any way helped in the preparation and publication of this '67-'68 G.V.C.I. Yearbook thus helping to make it a worthy memorial of this our "Centennial Plus One".

Mayor's Message

The Winkler Council takes great pleasure in congratulating the 1968 graduates of Garden Valley Collegiate Institute. You have reached a very important milestone in your life.

Some of you will no doubt join our ranks and work shoulder to shoulder with the work force of our community. We look forward to the vitality, energy and new ideas you will inject into society. Many opportunities beckon you to try out your wings, right here at home in your own community.

To the students who will move on to further study and training, or enter employment away from home, we extend our good wishes for success. We trust that your future plans will make provision for you to come back to serve in your home community.

The challenge of change faces each one of us in our complex world today. Let us rise up to this challenge and be willing and flexible to change, where change is good and positive and in the interest of people. But we also want to recognize and uphold the moral and spiritual values that have stood the test of time and do not give way to change.

Our sincere best wishes for continued success go with all of you.

The Winkler Council
per H. F. Wiebe, Mayor.

Inspector's Message

I consider it a pleasure to bring you the greetings of the Department of Education. May I add to these my own good wishes for your future success and happiness.

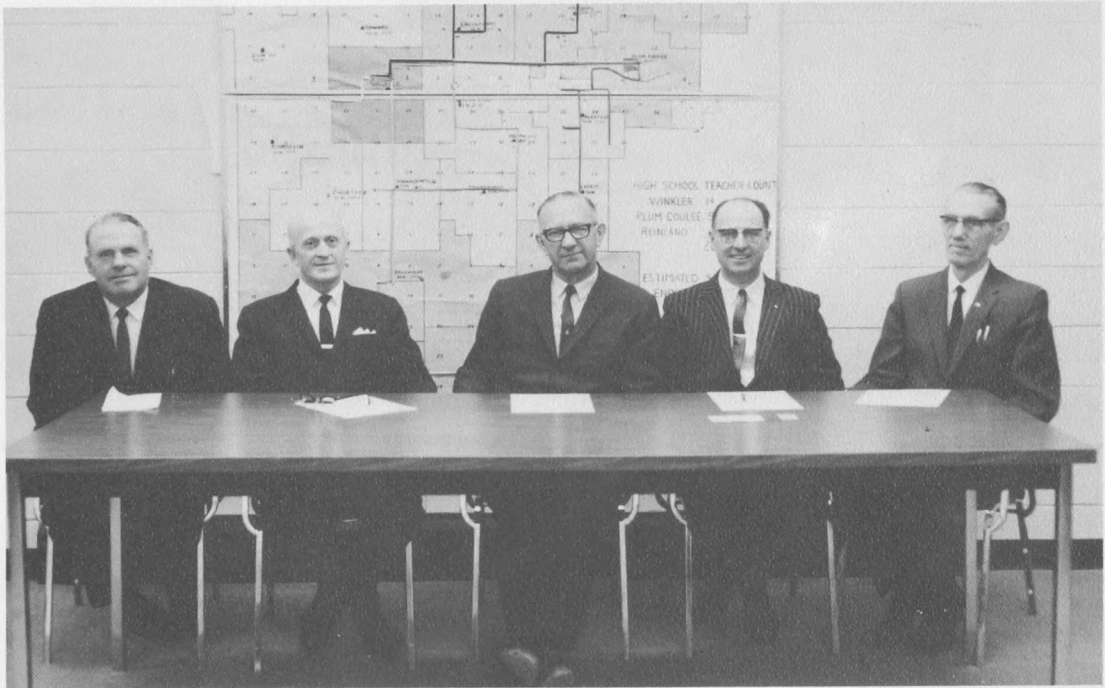

At the present time our educational system in Manitoba is undergoing a great deal of change in an attempt to meet the changing demands of our changing society.

You, the students of Garden Valley Collegiate are privileged to attend one of the most modern and finest of school plants in Manitoba. It is my hope that your physical surroundings will inspire you to achieve the best of which you are capable.

I would like to extend to the graduating class my good wishes for a happy and rewarding future.

Sincerely,
R. L. McIntosh,
Inspector of Schools.

Garden Valley School Board

SCHOOL BOARD MEMBERS

Left to Right: Mr. George Banman, Mr. George G. Elias, Mr. P. D. Labun, John Walkof, Mr. G. G. Siemens.

On behalf of the Board of Trustees of G.V.C.I., I consider it a privilege to contribute to the first Yearbook of our new Collegiate.

For educational purposes the people of Garden Valley Division readily fall into three major categories each of which has a particular function to fulfill. Therefore, permit me to address each group individually. Obviously, the first and largest group is comprised of parents and ratepayers who are highly functional in providing the physical and financial means for the operation of the school. No one will deny that in recent years High School facilities in our Division have been inadequate. Fortunately, after much thought and planning had been given to the matter the electorate came to realize the need for better accommodations and through democratic process declared itself ready to accept additional financial responsibilities so as to enable us to bring our plans and dreams to fruition. On this account, you, as parents and electors merit our deepest appreciation and commendation.

Now, as we turn our attention to the second Category, the student body, we sincerely express the hope that you will avail yourselves of the varied courses offered in this new Collegiate. In my opinion our school is unique in that it reflects the new technological age which has so suddenly come upon us. May we encourage you to make the best use of the splendid facilities now at your disposal and also to take full advantage of the instructions, directions, and guidance you may derive from a competent and diversified staff of teachers.

Being the first generation of students privileged to use these new facilities you are thereby challenged to set the pace for progress and to seek and to strive for a high standard of scholarly performance so as to be able to say in effect to subsequent generations.

"To you we throw the torch;
Be yours to hold it high".

In congratulating the first class to graduate from this Collegiate, we express the hope that you may successfully complete your course and that whatever field of studies or service you may choose will lead into a rewarding life.

No educational system could function without the educators, the teachers, the secretaries and the custodians. Hence we salute our third and final group, the staff. In transferring from the former to the present premises you have embarked upon a series of changes and adjustments that no doubt necessitated much intelligent planning, revision and readjustment. The introduction of new courses, the effective placement of students therein, the late arrival of additional staff, together have entailed many hours of extra-curricular work for those in charge of the planning, revising and drawing up of a workable timetable and programs. The fortitude and stamina with which these initial problems and difficulties have been met are indeed commendable and at the same time lend faith and confidence to the competence and resourcefulness of our educators.

In conclusion, to the degree that these three groups perform their functions properly, unitedly, and effectively, may we face the future in education courageously and optimistically.

Peter D. Labun
Chairman

Principal's Message

Thank you committee members for asking me to present a message to be recorded in the 1967-'68 Yearbook. I congratulate you on a fine effort that has produced this book. I am certain that it will be well received by all who will take the time to read it.

It is with some trepidation that an educator today accepts an opportunity to speak, for fear that the ideas he expresses are slipping into obsolescence at the very time that they are born. Yes, the word "change" in the recent past has almost become an obsession with some educators. It is, therefore, my message to all concerned with Education in the Garden Valley School Division that we might not be overwhelmed to a degree that will see us compromise, in this dilemma of change, those values in life which edify man as a being created in the image of God. But in our aspirations to preserve those things which are dear to us it is also a challenge not to become complacent about our achievements and to believe that the new vistas ushered in by the changing world can have nothing better to offer than what we already have, this would be sheer folly.

It is true that in the last few years man's achievements in Science and Technology seem to have no limits and

that man's relentless search for material success has brought him the things he desires. And yet, there seems to be a greater, more urgent quest in man today than the one for material gain — it is the search for purpose and meaning to life. I seem to sense among the students in this school a spirit of anticipation and preparedness or willingness to meet this challenge — let me encourage each one of you to set your goal to do just this. In doing this you will dispell some of the frustrations that beset you in this fast changing world and you will come to realize that it is not a matter of keeping up with everything that is happening but a matter of being involved and a matter of putting forth an effort and a willingness to contribute each day of your talents and abilities to meet the tasks that come your way. Then you will begin to experience real achievement.

To all students in the Collegiate I say take courage and make this a year of personal success and to those who are looking forward to being in the 1968 Graduating Class I would urge you — let your desire and determination take you there. My sincerest wish for each one of you is God's richest blessings in your personal life.

Valedictory Address

Mr. Chairman, Honored Guests, Parents, Teachers, Fellow Graduates, Ladies and Gentlemen:

It is with mixed emotions that we as graduates stand before you tonight. We have emerged victorious in what has probably been the most difficult battle in our young lives. To graduate from high school has been the goal of each one of us since the day we stepped into the kindergarten classroom. However, now that we have attained this position, I believe we would rather not have had it come so quickly.

During these past twelve years and especially during our high school days, we have created bonds of friendship, and developed a strong sense of loyalty to our Alma Mater. We have tried to uphold the traditions of our school, traditions which must now be guarded and nurtured by those students who have not yet graduated.

The many activities and incidents which we have shared at Winkler Collegiate and Garden Valley Collegiate will make leaving these halls of learning even more difficult for us as graduates. Singing together in choirs, participating in drama and committee work, and playing baseball, curling, football, and basketball to the roaring of the crowd and the urging of the cheerleaders have given us countless memories, many of which we shall never forget.

Graduation, however, is not the end; it is a milestone which signifies something greater and better to come. We as graduates must look to the future and establish higher goals and ambitions for ourselves. For some of us, this day marks the end of our formal education, but it is certain that our education has by no means reached completion. Even those of us who do not extend our education to a college or technological institute, realize that in order to survive successfully in our highly complex society, we must be well trained and possess a skill in a particular field.

On this, our day of graduation, especially, we cannot forget the major roles other people have played in our school life.

I would like to express my personal appreciation to my fellow graduates and to the staff for having given me the privilege and honor of expressing our thoughts here this evening.

We cannot possibly repay our parents for the part they have played in making it possible for us to graduate tonight. They have encouraged and comforted when it seemed almost impossible to go on. They have financed our journey through school and have often aided in charting our course. We can only hope that, in the future, we will conduct ourselves in such a way that you, our parents, will feel that your guidance, efforts, and sacrifices have not been in vain.

Another group of people to whom we owe much is our teachers. The many pranks, from the disappearing textbooks and briefcases, to the annual collections of water pistols and barrages of paper airplanes must have done little else than cause the many headaches. However, we also remember that they were the ones who instructed us, not only in knowledge which can be found in books, but also our teachers have tried to show us proper values and correct attitudes toward life. May you, our teachers, be rewarded for your tireless efforts and unfaltering devotion in the years ahead when you see us develop into responsible and worthy citizens.

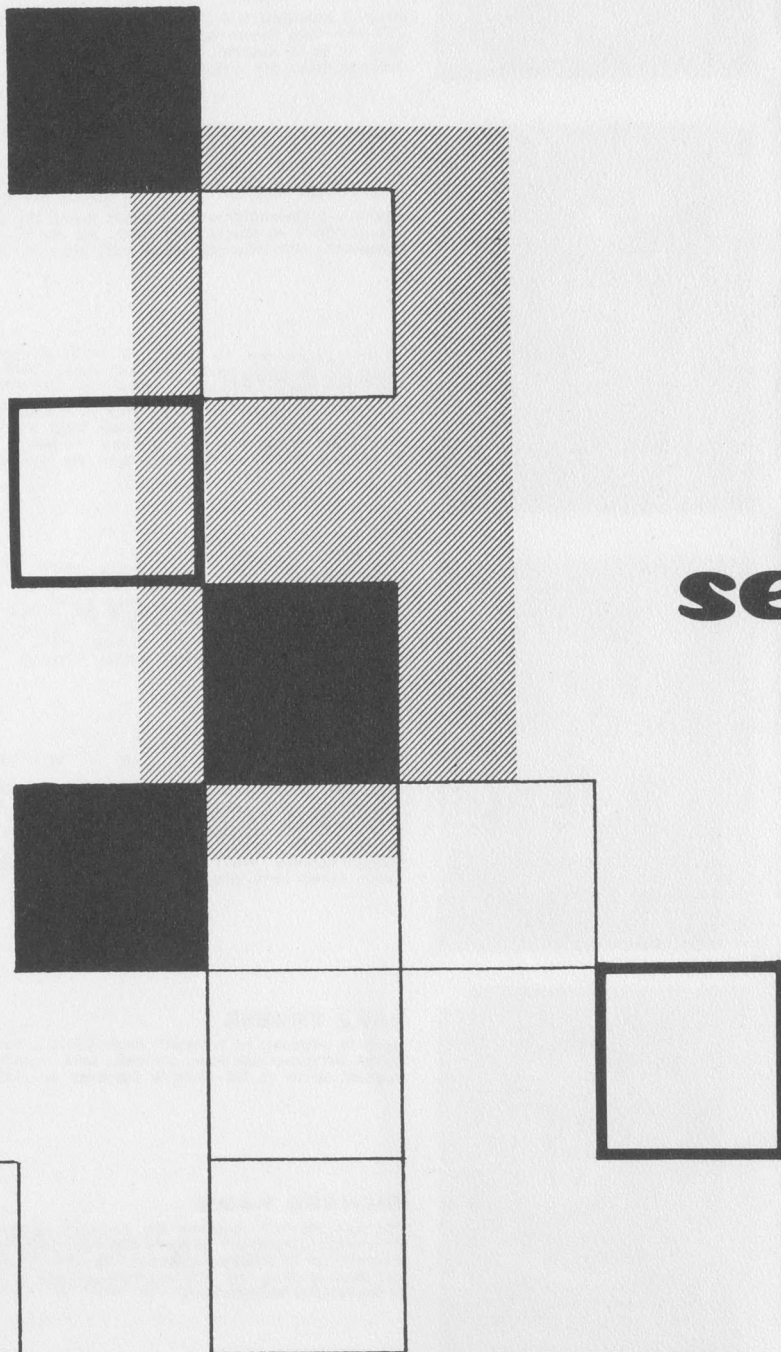

To the members of the school board and the citizens of the community, we would like to express our gratitude. You have always given us fine facilities with which to work. We thank you for your continued interest in our progress.

Last but not least, we are grateful to God, who has given each one of us the talent and power to overcome the obstacles on our way to making this graduation a reality.

In our aspirations for the future — as we strive for achievement, happiness, and success, we would be wise to keep in mind the exhortation of the Master of all times when he says, "Seek ye first the Kingdom of God and his righteousness and all these things shall be added unto you."

—THANK-YOU—

UNIVERSITY ENTRANCE

RODNEY BANMAN

Rod is a hard working man who thinks of school as a minor detail. He drives a motorcycle for excitement in summer and plays hockey in winter among many other things. Rodney's weekends and evenings are always busy, however, he manages his tight schedule very well.

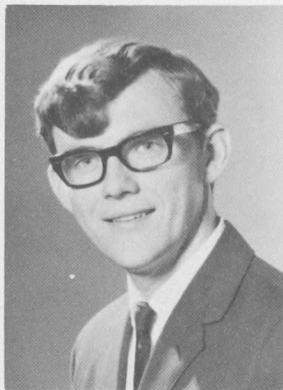

ERNA DOELL

Erna is attending G.V.C.I. this year for her last time. She is a fun-loving girl with long brown hair and blue eyes. Her future is undecided but is sure to be a success. Maths is not her favorite subject but she will succeed. Boys are one of her favorite subjects.

AGATHA DYCK

Agatha's main ambition is to finish Grade XII and take Nurses' Training. She is active in drama, and choir, but she is not overly active in doing homework. Her interests range from boys to more boys.

GEORGE DYCK

JAKE FROESE

Jake is planning to graduate from G.V.C.I. but his plans after this feat as of yet have not been decided. Jake is active in most areas of recreation, some of his favorite pastimes are boxing and hockey.

RICHARD HAMM

Through the hall resounds the booming laughter of this individual after he emerges from Mr. Brown's German class. He is known as "CHINK". Famous for his boxing matches, he merrily accepts many a hard blow but returns them all. His marks are good and he aspires to something in the field of Mathematics.

NELLIE HIEBERT

Nellie enjoys school life. Besides handling only four subjects, she attends choir, I.S.C.F., volleyball games at noon hours. The desire to enter Nurses' Training next year seems utmost in her ambition. Her friendly smile and pleasing personality will bring success in her field of service.

KEN KIRK

Ken is forever looking for practical uses of the German language such as "Schwunk is the key." He is fast and keen at wrestling and boxing matches which he enjoys immensely. Instead of apologizing directly to a teacher, he says "sorry" to a friend while the teacher is within hearing distance.

GLORIA KRAHN

Gloria is the Student Council's very able Vice-President and Assistant Treasurer. But, everyone is wondering from where she gets all the pennies which she keeps tucked away in a jar. She is very active in sports, being captain of both the basketball and volleyball teams. Gloria's ambitions include travelling and university.

JOHN KROEKER

"Krake" our tall wondering Casanova is always on the prowl. Still a bass player for his own band, John has now given most of his time to curling and special attention south-east of Coulee. John's pleasing personality and character is a benefit to him and a reason for his countless friends.

ROSELLA KUHL

Rosella is an ambitious, fun loving, brunette with charming blue eyes. She enjoys skating, watching basketball games, movies, sewing and driving car. Her homework is always done so it is nothing unusual that she obtains high marks. Next year she plans to attend the Grace General Hospital School of Nursing.

SHIRLEY GIESBRECHT

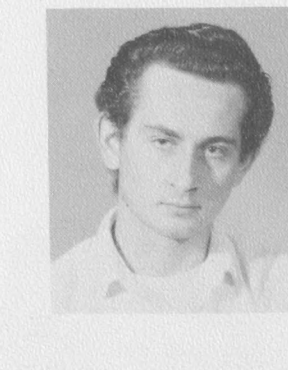

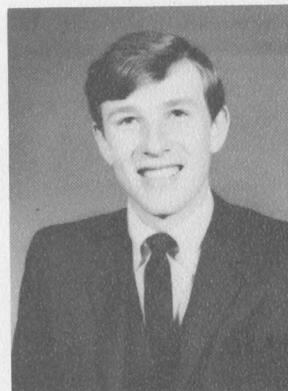

Shirley is a blue-eyed blonde, is always busy doing something, whether it's work or "play". She is an active participant in all sports, especially track and field. Not only will she be participating but she will also be coaching the junior girls. She played for the girls volleyball team in '67. In the near future she plans to attend Goshen College where she will major in Physical Education.

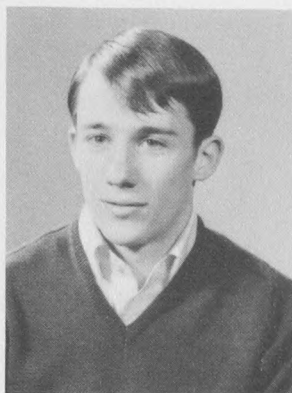

DAVID NEUFELD

We're sorry to say
Nothing was said;
So needless to say,
Naught can be read.

RUTH PENNER

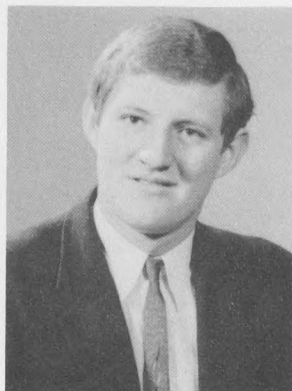

Ruth, the dark brunette with beautiful brown eyes is a very friendly and fun-loving lass. Her main interests are: reading, writing long letters, and driving car. She detests going to German class just before dinner. As for her future, she plans to train as an R.N. in the Grace Hospital next year.

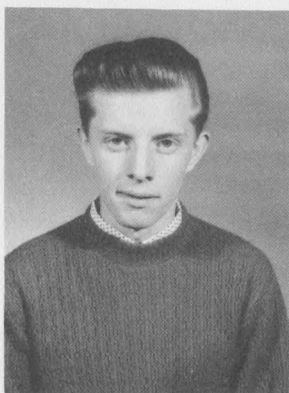

KELVIN PENNER

Kelvin, after staying out of school for one year and earning some money, decided to come back to school to finish his Grade XII. He plans on enrolling at the University of North Dakota, in Grand Forks, to obtain a degree in Physical Education.

JAKE PETERS

Jake comes to the G.V.C.I. from Reinland. He is determined to finish his grade twelve and is enrolled in Chemistry, Maths and English. He enjoys music and participates in such sports as baseball, hockey, and hunting. At present his future is still undecided.

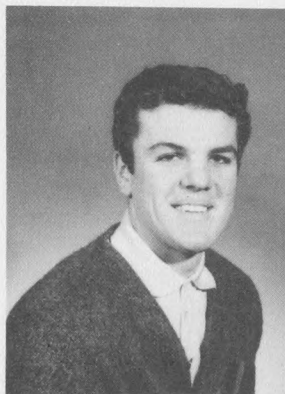

KEN PETERS

Ken is a quiet sort of fellow. As a stoic he takes things as they come. Ken's main interests besides school, are Fords and sports. He enjoys and likes to participate in hockey or baseball. It's obvious that he means to complete his twelve this year since he always manages to get his homework done.

KRIS SAWATZKY

Kris Sawatzky is the convener of the Drama Committee. She is also in the Student Council, attends choir regularly. She possesses a pair of false eyelashes which she never wears. Sad songs, and comedies appeal to her. She dislikes maths, and the smell in biology, and Monday mornings.

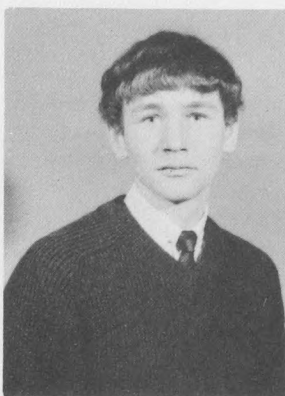

ALVIN TOEWS

Alvin is a man who is very active in sports among other things. He is back to finish his Gr. XII matriculation so as to get somewhere in the future. He has received his fame through his excellent curling in the various bonspiels in this area. He has played off and won the challenge trophy many times this year. All in all Alvin will have a bright and active future.

ALAN WIEBE

When one thinks of Alan one is undoubtedly reminded of basketball. Alan has led Garden Valley to many victories in the past seasons. Alan's good humour and spirit has made him the annual choice for "Master of Ceremonies" at all Collegiate social functions. Good-luck Alan in your future endeavours.

DON WIEBE

Don is definitely individualistic as occasional lively arguments in English will reveal. Any fair weather will find him on his cycle with a friendly companion. Interests range from music to sketching. An engineering degree from the University of Manitoba is a likely part of Don's future.

JOHN WIEBE

John, a dark curly-haired lad, is full of vigour and vitality. As well as taking part in sports, John enjoys playing his steel-guitar. On weekends John takes pride in going to Winnipeg! After Grade XII, John plans to enter the field of foreign religious voluntary work.

EVELYN WIELER

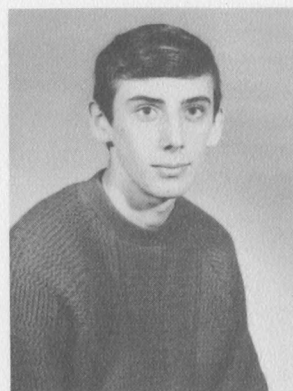

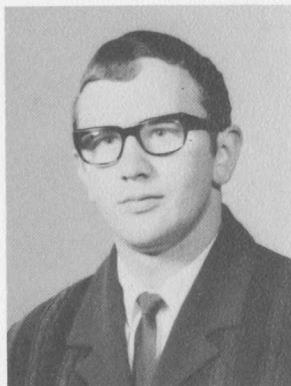

Evelyn resides in the country, and detests the daily ride to school on bus. Some of her interests are skating, tobogganing, playing ping pong, and also piano. Her pet peeve is having her homework finished in time. Her ambition is to become a registered nurse.

213

HARVEY BRAUN

Harv, class 213's Newspaper and Publicity representative, is a student who takes part in many school activities such as curling and watching basketball games. He lives in the country near Plum Coulee where he makes use of our outdoor resources by hunting. He also enjoys camping as well as some fishing.

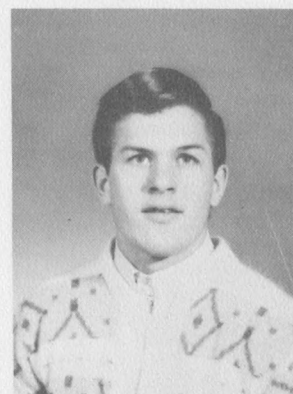

RALPH BUECKERT

Ralph the attractive lad in class,
At break he may be seen with some lovely lass.
Likes classes especially when they are through,
Perhaps for good reasons, he'd argue "it's true".
With after-fours he couldn't be bored,
Either out for a visit or curling in scores.
But whatever it be,
In Ralph you can see
The one who's got what is needed.

DENNIS BUHLIN

"Dino" the second seems to have two idols under which he succeeds to survive; Dean Martin and Daun Drysdale. He is very active in sports, taking part in curling, hockey and baseball. Dennis has a great personality and is well liked as far as Quebec and Florida or as near as here! If you don't believe me, ask me!

MARY DRIEDGER

Mary is one of those students that usually have their homework done on time. Besides school work, she enjoys reading and driving her own car. She is a graduate from Elim Bible School. Her plans for the future are undecided but we're sure that she will be a success.

ESTHER DYCK

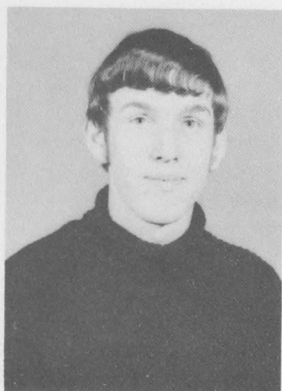

Esther, being one of the fortunate girls taking complete grade twelve, plans to go to the University of Manitoba next year to take Education I-A. Besides being the drama rep., she also takes an active part in the choir. Her many interests range from basketball games, to sewing and reading.

JAKE DYCK

Jake is the elder of the class. He works nights at the Eden Mental Health Center as an Orderly and attends school during the day. Jake hopes to complete his Grade twelve this year, and attend university in the future. But first he plans to leave the country and see the world.

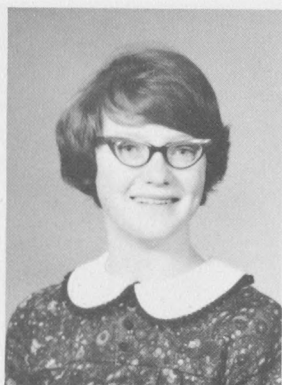

RON DYCK

"Red" is a likeable 'chap whose main interests are women and hunting, in that order. His favourite subjects in school range from fooling around to sleeping. As can be expected, Ron hates school, however his ambition is to complete Grade twelve. Ron's plans for the future are undecided.

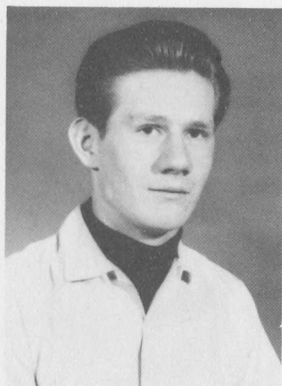

TINA ELIAS

Tena is one of the many intelligent girls of G.V.C.I. She tends to her work faithfully and doesn't give up until her problems are solved. When out of school she spends her time reading or playing the piano. We in class 213 are fully convinced that it takes people who have ambition like Tena to make a success in life.

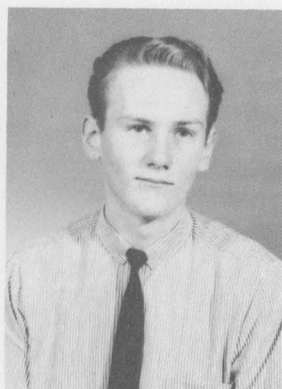

CAROL FRIESEN

Carol is kept busy by many varied activities such as school choir and being secretary of the Literary Committee. Her ability of character portrayal was shown in the drama "The Egg and I." When Carol has ideas she is not afraid to make them known, therefore, she did an excellent job on the student-parent panel on Dating.

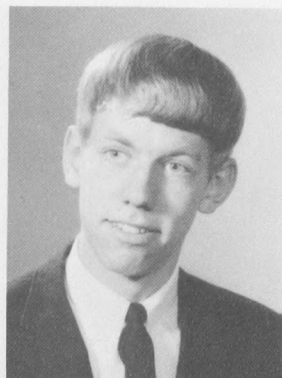

JOHN FROESE

John, the brain from Reinfeld has established a remarkable reputation for his outstanding scholastic achievement. A great lover of sports and girls, John finds little time to do his homework. Claiming school a drag, he attempts to brighten up classes by irking teachers and making smart remarks. His plans for the future remain undecided, but he is sure to be a success.

BERT HILDEBRAND

Bert comes here each morning from Rosenbach. He is an industrious student who has many varied interests which include hunting, playing the guitar, skating, and ping-pong. One of his main aims for the immediate future is to finish his Grade twelve which he should not find too difficult.

MURRAY KROEKER

Murray Kroeker, our beloved social rep., keeps the teachers hopping with his brilliant observations on life. Furrie's interests be in "C"ex, super-cars, and sports. His favorite subject is physics but he abhors German. His ambition is to become a wealthy socialite such as Hugh Heffner??

LINDA NEUFELD

Linda is one of those busy people who somehow manage to enjoy life besides convening the social committee, participating in choir, taking part in school discussions, and filing an application for Nurses' Training. As if school and school work weren't adequate. Linda sews some of her clothes, works "after fours" and spends weekend evenings with a "friend."

JENNY PENNER

Jenny is a brilliant pianist and plays for the orchestra, school and church choirs. Next year she plans to study music at the "M.B. Bible College". Jenny was our very capable I.S.C.F. president during '67-'68 and this requires real perseverance. She is an accomplished driver but can't seem to stay out of the ditch?!

JAKE PETERS

We're sorry to say
Nothing was said;
So needless to say,
Naught can be read.

DARYL RIETZE

Daryl is known for her intelligence and she has three scholarships to prove it. Obviously much of her time is spent studying but being the competent convener of the Newspaper and Publicity Committee demands a great amount of her time. Her favourite character ? ? ? — Mr. Spock — V.S.S. Enterprise.

HAROLD SAWATZKY

"Horse" comes back to further his education after being out of school for five years. When in school he doesn't waste any time, but works hard in one of the four subjects he takes. After school he goes for coffee, and then to work or to play hockey. His future plans are to further his education and to make money.

ELSIE THIESSEN

Elsie is our faithful Yearbook Representative of Class 213, who is jovial and easy going. By using this same spirit in her school work, she has no difficulty in passing exams. A few of her outside school activities include reading, driving "a" car, and skating. Her future ambition is to enter Nurses' Training.

ELMA WALL

Here's a lass who is generally very cheerful — even though she has to walk to school the occasional time after missing the bus. Naturally, this being one of the advantages of living in town! Elma, for some reason, has a certain attraction for teachers and this also explains her future ambition — that of attending University A-1.

KEN WIEBE

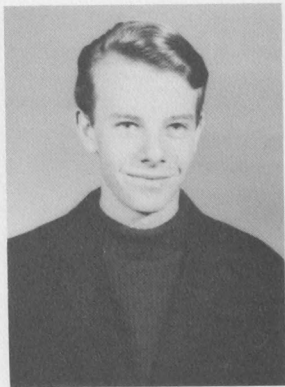

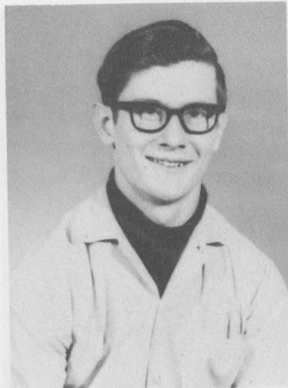

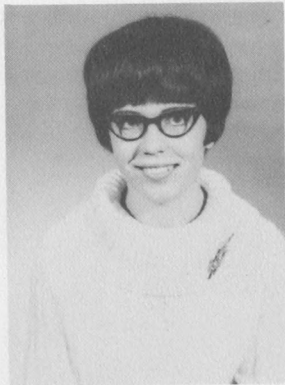

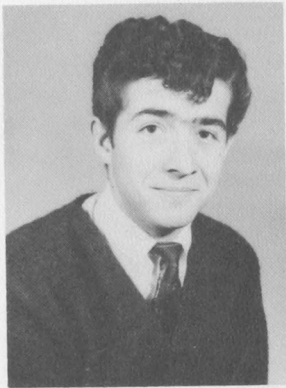

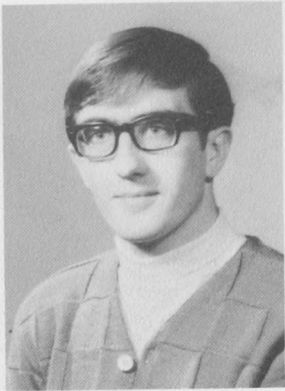

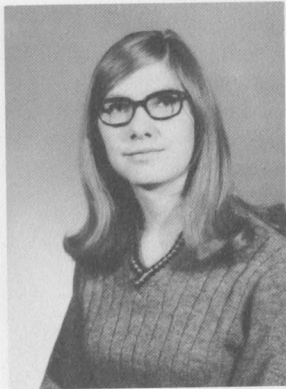

We're sorry to say
Nothing was said;
So needless to say,
Naught can be read.

FRANK WIEBE

Frank is one of our grade twelve students with a definite goal in mind. He enjoys numerous sports like curling, cycling, hunting, fishing, and takes in an occasional basketball game. Frank is also one of those, who would rather spend a day on his own than spending a day in school.

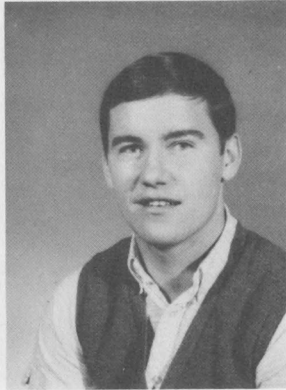

ERNIE WIELER

A friendly Hi! on a Monday morning and you know Ernie is in school. Hailing from Reinland his interests lie in outdoor activities such as hunting and camping but ranks fishing the highest. Ernie does well in his school work but also finds time to attend most of our basketball games.

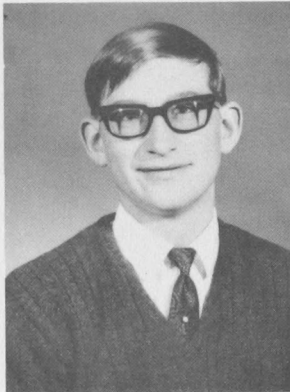

**BRIAN DERKSEN**

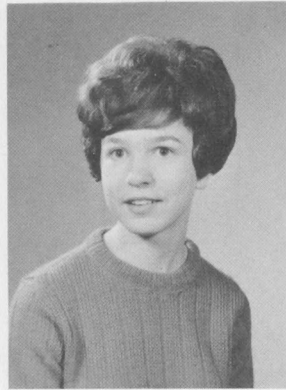

Brian is a guy who has already decided on his after school career. But for now he makes the most of things. He enjoys curling very much and may put aside a few things just to attend a game, even if it means to forget about some unfinished homework. Other areas of interest that Brian has range from cars to motorcycles to girls.

**DOUG DYCK**

Doug rejoined our Collegiate at the end of January after registering here in August and then transferring to a Collegiate in the city. This lad is an excellent hockey player and a star on the Royal Hockey Club.

**BOB ELIAS**

Bob a carefree lad, provides much amusement for his fellow students. He is careful to escape the never-ending wrath of our teachers, but also a target for many a practical joke which he generally accepts in good spirits.

**IRENE ELIAS**

"There you go!" is one of Irene's favorite expressions. She likes school, but her pet peeve is "homework". She participates in extra-curricular activities such as choir, ping pong and was one of the volleyball champions. She enjoys playing the piano. Her ambition is to complete Grade 12.

**GERALD FALK**

"Gerry" as he is called by most students hopes to finish his Grade 12 this year. Gerald would rather work in the auto-shop all day on that old "FORD" of his than sit in a Chemistry or Literature class.

**MARGARET FRIESEN**

Margaret hopes this to be her last year at G.V.C.I. She enjoys school life — I.S.C.F. devotions and Fridays' programs, choir, panel discussions and school in general. It is her desire to enter Education 1B next year and a further ambition of her's is to enter Child Evangelism.

**GERALD GERBRANDT**

Here is another one of the people fortunate enough to be in his last year of high school. He is on the Yearbook Committee as well as a tenor in the senior choir. Numerous people find Gerald's personality quite attractive.

**LEONARD HARMS**

Along the straightway screams Len's Malibu and through the corners howls his Triumph. He is a man who is not to be tied to anyone or anything. He likes to ramble as he pleases. Restrictions are not along his line and according to him rules are not made to be abided by.

SYLVIA HILDEBRAND

"Ya, very good", that is Sylvia for you, everytime. There is never a dull moment around this little gal. Sylvia our little daydreamer, shy — by no means, looks forward to every weekend. As school goes sports such as table tennis, soccer and volleyball are just great. Homework is never a problem.

EDWIN KRAHN

Ed is an "A" student from Osterwick who usually has his homework done. After school he actively participates in hockey and plays for the Osterwick hockey team. Although hockey seems to be his favourite sport he is quite often seen driving his dad's car on Sunday night with a certain friend of his sitting beside him.

HELEN KROEGER

Helen, an active, cheerful girl, will greet you with a cheerful "Good morning", even on a Monday morning. She exhibits excellent sportsmanship on the basketball floor and plays the game well. Outside of school you'll find her busy in such activities as Young People's, choir practice and planning the next I.S.C.F. program. The future will probably find her as a missionary on another continent.

HERB KUHL

The most handsome guy in the class, that's Herb. He's in most of the extra-curricular activities and is a member of the Social Committee. Going to Crystal City every week to see Irene is draining his financial funds, but he doesn't seem to mind. His ambition is to become an X-Ray Technician.

WALTER LABUN

Walter is back in school to complete his Grade 12, so he may continue at University. His attractive appearance and personality win him many friends, both genders. He enjoys curling and indulges in frequent coffee breaks at the Oasis. Since he has a good sense of humour and is quite intelligent, we know Walter will succeed in whatever he attempts to do.

ESTHER PENNER

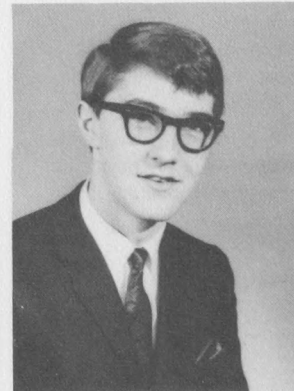

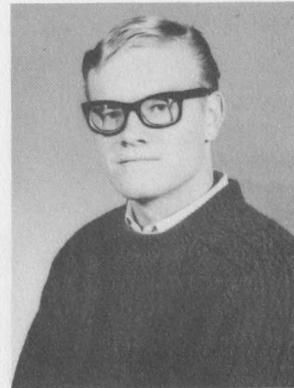

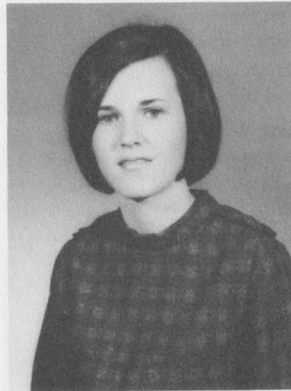

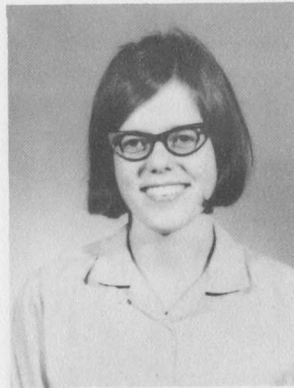

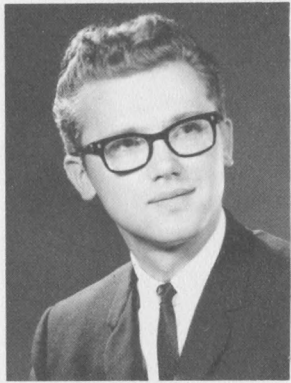

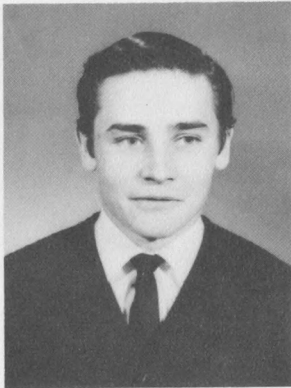

Esther loves God's nature, music and adventure. To meet her in the halls or to watch her sing, reveals a certain honesty about her. She is our Student Council representative, so we look forward to a report every Thursday morning. Next year, she plans to begin her studies in the field of Social Work.

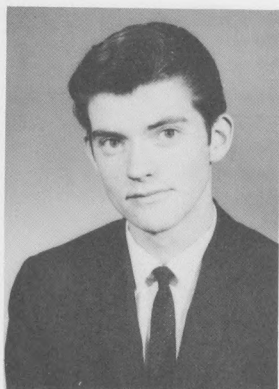

GORDON PETERS

Gordon is often seen drundling down the halls loaded down by thick rolls of cheques and cash — Alas, they belong to Student Council. Besides handling the treasury Gordy is active in sports, drama, and choir. During his leisure hours he pilots his red bug. Often he is accompanied by a female executive of Student Council. This individual plans to continue his education in the fields of chemistry and journalism.

EDNA SCHRITT

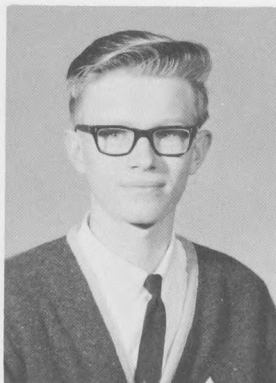

Edna is a fair-haired, blue-eyed lass. Tennis and volleyball are some of her favourite sports. She takes active part in the School and Centennial Choirs. Her ambition is to become a stenographer. She is planning to take her training at M.I.T. or Success Commercial College.

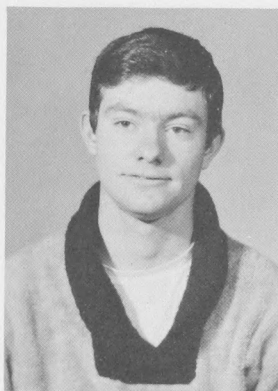

KEN THIESSEN

Ken, a handsome and friendly gentleman, likes to talk with girls. When not with girls, one may find him fighting with some of our "professionals". In literature he likes to use his literature scribbler for "doodling" and designing cars, and still obtains satisfactory marks. At home, one can find him raising the roof with his guitar and amplifier.

KEN WARKENTIN

Ken enjoys the wide out of doors. His favourite pastimes are hunting and fishing. He also enjoys skating and a lively game of ping pong. His plan for the future is to complete grade XII. Even though G.V.C.I. is a pleasant place he would like nothing better than to leave at the end of the year.

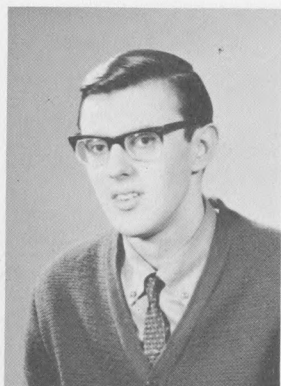

GERALD WIEBE

"Jerry" is well mannered and easy to get along with. His philosophy of life is that each individual should live life according to his own estimations. Although he is not intensely active in sports, he enjoys a friendly game with the boys. Future plans are to join the Peace Corps through which his lifetime vocation will be decided.

Someone I Admire
by Dolores Hildebrand

Leaves were tossing in the wind as September swept away traces of summer. The first semester at school was, shall I say, sentenced. After being carefree and somewhat irresponsible all summer, the thought of rules and regulations of the dorm did not intrigue me. Familiar with the routine, I sought out my room and began to unpack. The "formal atmosphere" was soon broken by the abrupt entrance of Cess, whom I learned was my roommate. Her name was not really Cess, but Castoris. The latter name should explain why I chose to call her Cess.

Although not beautiful, she had that certain quality that made you want to know her. Perhaps it was her sea-blue eyes that caught your immediate attention . . . yes, that's what it was. The minute our eyes met, a warm, deep relationship began. Our relationship was one that lasted "till the end".

I recall being invited to a friend's house one frosty night. The crisp air compelled us to ignore the temptation to take a taxi. We walked. We walked the entire two miles and my feet and my complaining justified every step of the way. Cess, however, didn't let a slight handicap like swollen feet bother her.

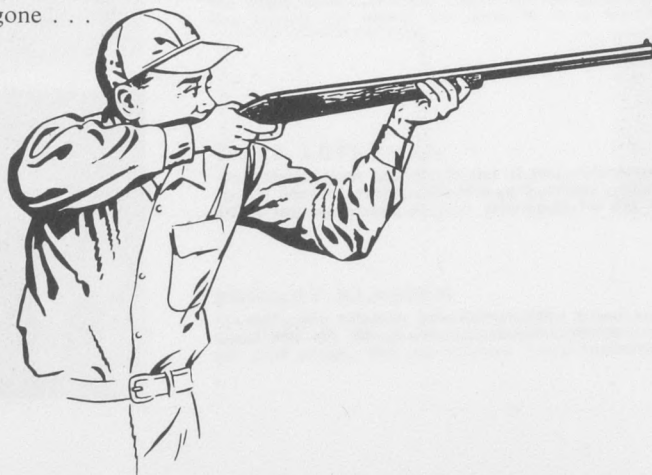

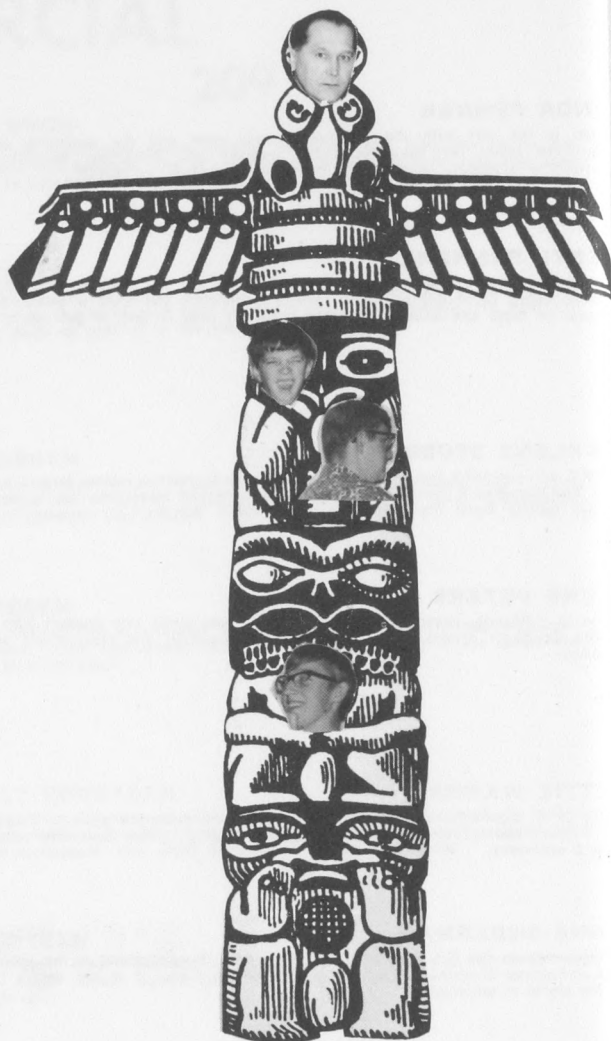

"Be happy you're able to walk on your own two feet," she said.

She was a "Pollyanna", finding something good in everything and everyone, no matter how hard it was.

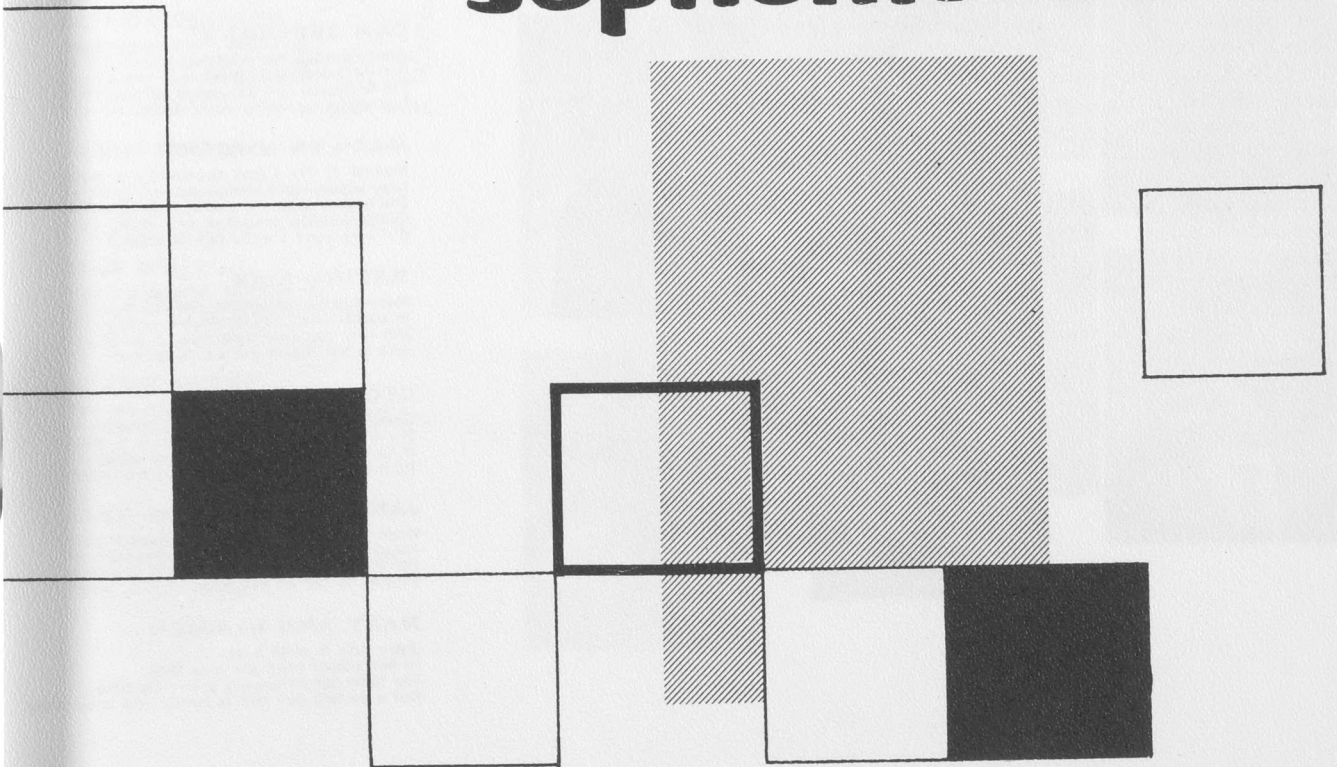

Cess lived in a world of "doing good unto others", and consequently had many friends. I don't mean she was popular in school activities. She did her part, but didn't push people into taking special notice of her. Cess worked part-time as a "candy striper" at the children's hospital, was an active member in the Science Club, and was usually out babysitting at night. Little brats seemed to like her company. I never could understand how she managed to spend so much of her spare time with children.

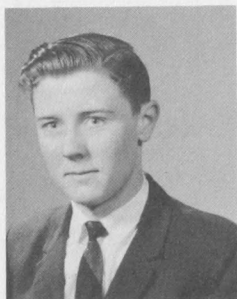

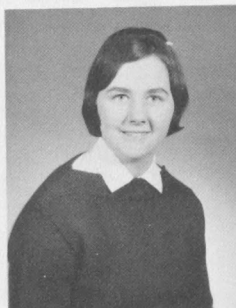

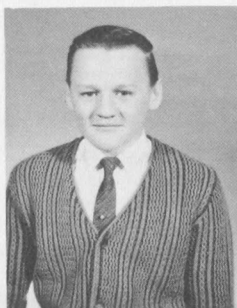

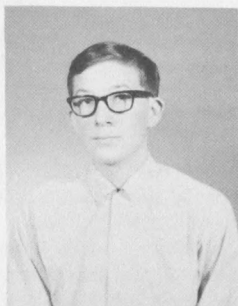

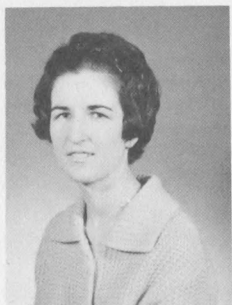

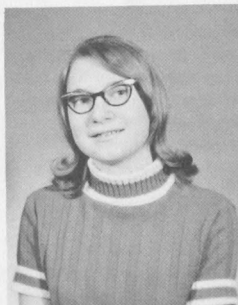

It*was only last week that she offered to "referee" a group of wild, little boys who were to go on a hike with their senior leader. As you can expect, there was one lad who thought he was just a little more experienced than the rest. On a dare, he tried to prove he could out-swim the current of the river. He was soon swept downstream. Amidst the group of hysterical youths, Cess came to the rescue. Not a strong swimmer herself, she was by some chance able to reach the drowning boy and tug him to shore.

Thunder clashed, rain poured, and tears streamed down my face as I realized Cess was gone . . .

STUDENT COUNCIL REPORT

Another school year has almost come to an end. It has been a good year and many thanks and congratulations must be extended to those who made it so.

First of all, we thank the good citizens of our division who built this beautiful new school for us. It was a challenge for us to be the first students to reap the benefits of your generosity, but I believe we met it well.

We thank the teachers, for it is their knowledge and guidance that steer us to our goal.

A special kind of thanks goes out to our parents. Their love and wisdom are things we just could not do without.

On behalf of the Student Council I would like to congratulate those who are about to graduate. You have come to the end of a long road. You paved it well.

Finally, let us thank Him, by whom all things are possible.

Drama Activities

In spite of inadequate staging facilities, problems with lighting, no curtains, and some slight friction with the student council about the banquet, the Drama Committee managed to survive. The committee went on to do better and better things. The first presentation was a hilarious comedy, *The Egg and I*, directed by Mrs. Tina Kehler and co-directed by John Kroeker. This production proved to be a great success and was held over for one performance.

The Remarkable Incident at Carson Corner was the second play. This unusual drama was again directed by Mrs. T. Kehler and the co-director was Alan Wiebe. The Drama Committee purchased much needed lights and finally the curtains were installed in time for the second play. To end the drama season a small get-together was held for all the students involved with drama. Personally, I loved every hectic, unpredictable moment of it.

I.S.C.F. Activities

The Inter-School Christian Fellowship organization in our school meets weekly on Friday noons, with an average attendance of sixty. Prayer meetings are held each Tuesday at 12:00. Between fifteen and twenty attend.

The themes which have been discussed during the course of the year are, "What is a Christian, Science and the Bible, and My Life with God." Meetings include panels, speakers, Bible studies and films. One highlight this year was a meeting at which several students shared their experiences from the Inter-Varsity Missionary Convention in Urbana Illinois.

We have had two socials so far, one in late September and one on Valentine's Day. We are looking forward to our spring banquet and Spring Camp which is held at Pioneer Camp annually together with other I.S.C.F. groups from southern Manitoba.

I would like to express my sincere thanks to our sponsors, Mr. Dan Sawatzky, Mr. Abe Hildebrand and Mr. Don Kroeker; to the members of the executive; the principal, Mr. Neufeld; and all who have contributed to the success of our program.

Front Row: Jocelyn Enns, Mr. H. Kroeker, Carol Friesen, Mr. W. Schroeder, Dave Enns (Convener), Mr. G. Hildebrand, Mr. P. Nickel, Julie Penner, David Schroeder.

Literary Activities

As literary committee we were able to prepare two programs which were presented during the last two class periods of the school day. At each program the audio-visual complex was packed to capacity with appreciative students.

We had a "Reach for the Top" contest at each of the programs. Here the wits of two groups of students were pitted against each other. At the last contest, the Grade XII's defeated the Grade XI's in a tie-breaking question.

This was followed by a general Hootenanny led by the "singing" grade XI girls. The King and Queen candidates were then required to give impromptu campaign speeches.

As convener, I would like to thank the members of this committee for their fine work and many novel ideas. Their help has made heading the committee a real pleasure. We would also like to thank all the students who participated in the programs.

Music Activities

This year, the Music Committee has probably been busier than ever before. The Greater Winnipeg Schools Symphony Orchestra was presented in concert here on Feb. 24. On March 8, Mr. Bill Janzen, Jr. brought the Altona Schools Band to Winkler to present a concert for the students. The Orchestra and Choirs were kept busy throughout the year. The Orchestra played at the Collegiate's first Open House in September and again at the Official Opening in December. The Orchestra and both choirs also held their Annual Carol Service in December. The highlight of this evening was the Choir rendition of the Halleluja Chorus with Orchestra accompaniment. The senior choir competed in the Music Festival, competing against the M.C.I. from Gtretna, for the trophy. On April 23 the senior choir and orchestra presented a concert in the Steinbach Collegiate. They were sponsored by the Steinbach Glee Club. On May 10 the Choirs and Orchestra presented their Spring Concert. The Steinbach Glee Club was brought out to our Collegiate for a performance on May 24th.

Several players from the Orchestra shone individually. Jewel Kuhl played with the Greater Winnipeg Schools Symphony Orchestra. Doug Kuhl was honored, by being chosen to be a member of Canada's National Youth Orchestra. Jim Wiebe was chosen as a member of the International Peace Garden's European Tour Band.

All in all, it was a very successful year for us.

Front Row: Henry Boschmann, Linda Froese, Mr. George Pries, Mr. Harvey Kroeker, Daryl Rietze (convener), Miss Carol Johnston, Kathy Krahn, Ron Neisteter, Ken Kirk.

Activities

1967 was the year that the first G.V.C.I. newspaper and publicity committee came into existence.

Although we got off to a rather late start with the first issue of the Star appearing in November, the constitution-required four issues will appear in due time. We, as a committee, are grateful to the students for bearing with our first blundering mistakes and hope they now feel the paper is part of our school.

The committee is also responsible for "publicity", that is, seeing that the community at large is aware of collegiate activities. Nadine Loewen and Gordon Peters obtained the honour of reporting weekly to the local newspaper; reports were also sent to the radio station at Altona.

It has always been said that working on any committee requires a lot of hard work and a strong sense of responsibility. We, on the newspaper and publicity committee, can say there is no reason to refute this statement.

Social Activities

This year the Social Committee was presented with the challenge of planning the first parties in the new Garden Valley Collegiate. Although we may not always have succeeded, we tried our best to meet this challenge.

The Hallowe'en Social, October 27, was a masquerade party with a light lunch following the activities. The evening included initiation of the grade nines and a hilarious performance by the new teachers.

At Christmas, following the Carol Service, a banquet was held at the Elementary School auditorium. Gifts were distributed after the program.

The "Spring Fling" included the crowning of the King and Queen plus several interesting and rather different games.

In closing, I would like to thank our staff advisors for the time and effort they put into helping us and a special "Thank-you" to Mr. Neufeld for the co-operation he gave us whenever it was needed.

Sports Activities

Sport activities in the new term started with Soccer. The team, led by their captain Dan Hildebrand, lost only to Carman in league games. However, this was also the case in the finals, which determined the team that would go to the Provincial tournament.

Next came Volleyball. However both teams did not do too well. In the semi-finals, the girls lost out to Miami and the boys were defeated by Carman.

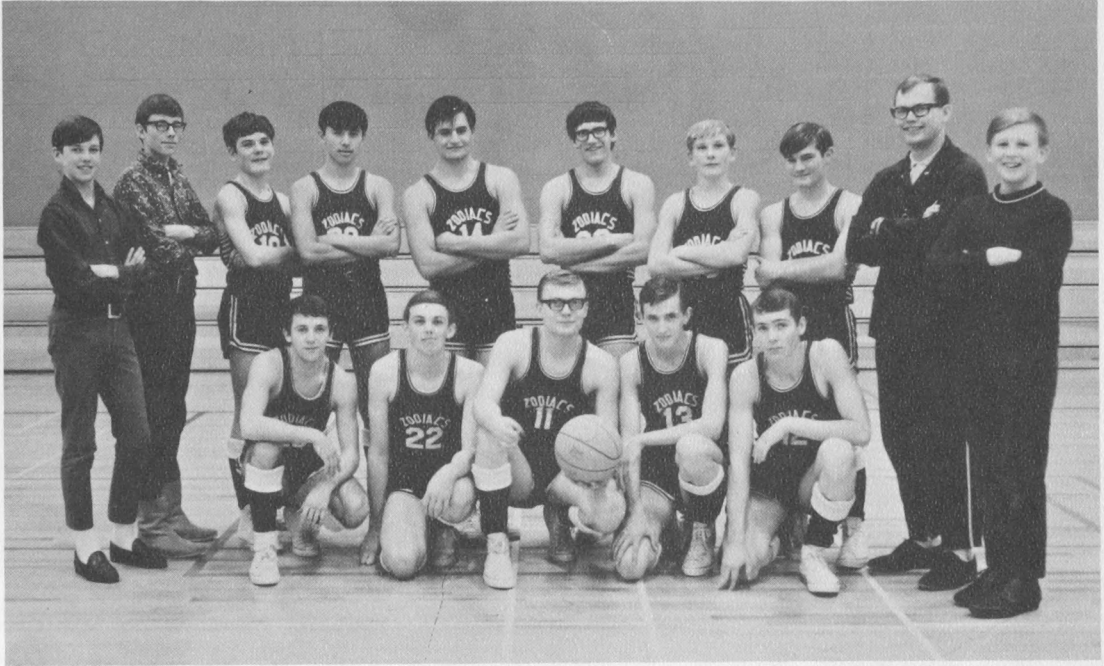

In Basketball, both girls and boys teams fared well. The girls were quite successful this year losing only three league games. They also brought back the trophy in their own invitational tournament held in the new High School. However they lost an all important game to Carman, which cost them a second place position and a berth in the semi-finals. The boys were more fortunate. They came second in the Western Division and played Altona in the semi-finals. In the two game total point series they lost the first game by ten points and tied the second, thus, losing the semi-finals, and ending the Basketball season.

In Junior Basketball, which consisted of teams from Miami, Carman, Morden, Sanford, and Garden Valley, the boys were quite a success. They were undefeated in league play and were victorious against Morden in a two game total point semi-final series. And as this report is being written, they are planning to meet Sanford in the Zone 4 Junior Finals. The girls, however were not as successful. They won only one league game, and therefore were eliminated from the semi-finals.

In Curling, the teams did not do as well as they expected, but they did bring several trophies to our school. They won the Morden Bonspiel, the Carman Bonspiel, and our own Garden Valley Invitational Bonspiel.

Yearbook Activities

During this year, the first in our new school, we set about to compile what we hoped would be the "best ever" as far as Yearbooks are concerned. Work began in early December with the recruiting of advertisements to help raise funds to cover the cost of the book. The committee elected a sub-committee, the Advertising Committee, to take care of this job. Two other members began organizing and compiling a "School Calendar". Meanwhile, the local photographer was taking individual, committee, and team pictures which were to be used in the Yearbook. Write-ups for the individual students were in the process of being written up. Gradually all the write-ups, committee reports, messages, and pictures were handed in and the "Dummy Book" was pasted up and sent to the Printers. We all breathed a sigh of relief when the finished Yearbooks were returned to us. The burgundy print on the gleaming white cover, representing our school colors began circulating the school and area. The rewards for all our work were now coming in.

In conclusion I would like to thank all those who helped in any way to make the endeavours of the Yearbook Committee successful, and, in so doing, helped make the term of '67-'68 a very good year.

From the first of haunted fury formed;
Greating a host of devils and stormed
The Gates of Gold in quest of sanctity.
Here to seek the glory of an entity;
To fill the breasts of loyal angels there
With the Son of the Morning and tear
An innumerable multitude to command
Of evil incarnate — in a less holy land.

Thus with livid hate infest the soul
Of man and create an endless goal
Of peace in the light of a lasting night.
Encourage in whispering shadows to fight
The curse of revelation in a morning star.
The everlasting duty of the precious to mar
The Pride of Eve and debauch her reason
Of that infernal war and highest treason.
Propagated in wicked design to ridicule;
Slander man and make him forever a fool.
To committing incest and whoredom ensnare
And beguiling the mighty a yoke to bear.
Thus to a closet of darkness, void of rest
Bound in chains of the First and the Last.

O Lucifer how you are fallen!
To make His work hated; sullen.
Once a seraphic being of glory,
Now creating a meaningless story.
Wherever you find a House of Prayer
You come and build a chapel there.

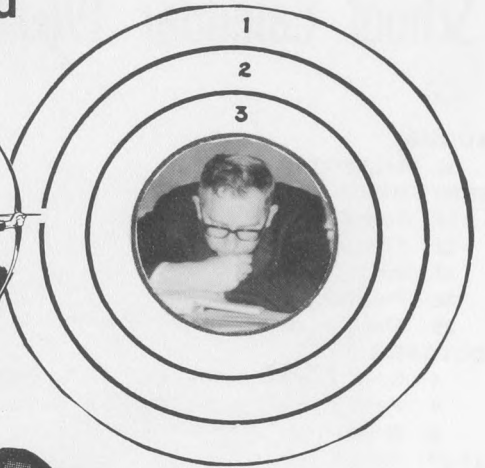

David Neufeld

DEPRESSION

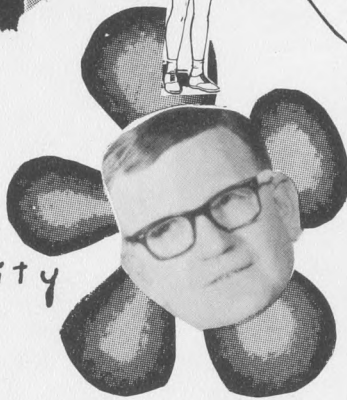

In the dim future, I can see,
Drawing nearer, surrounding me,
Storm clouds black!
Lightning crashes within my brain.
I feel its throb like cutting pain!
It goes on,
And on,
And on.
Within me rages a tempest wild.
I hear it screaming like a child,
Who is hurt.
I have to run. Run far and fast.
Leave all behind. Find peace at last,
From this storm,
Which strikes
At me.
The air is close; heavy with storm.
Like the vast skies, my thoughts are torn,
And scattered.
The shrieking winds whirl round my head,
And now . . . memories that once were dead
Live again
To haunt
Me!
And as I vainly struggle on,
I turn, and see the past has gone.
I look up.
The clouds begin to break, revealing
A silver lining! And then, new meaning
Floods my soul.
I kneel in awe and silent prayer,
Thankful that Someone does care
For me.
